## Stocks whose ESG has been internally rated

NAM does have a due diligence process based on both external providers and/or internal analysis, in order to assess the principal adverse impacts of investment on “sustainability factors”, The internal analysis is based on internal taxonomy (more details can be found in the NAM’s *Responsible Investment Policy*).

Company	TR ESG Score <i>Minimum Threshold = C+ (41,67)</i>	Niche AM ESG Score <i>Minimum Threshold = BBB</i>
RCS Mediagroup	38.3	AA
IL Sole 24 Ore	-	BBB
VEON	41.6	AA

## Stocks without ESG rating that have been waived by the ManCo

### Vitesco Technologies Group

### Kyndryl Holdings

### Euroapi SAS

### SK Square

Vitesco Technologies Group, Kyndryl Holdings and Euroapi SAS are currently ESG unrated by TR, since they have recently been spun-off from Continental AG, IBM and Sanofi, respectively .For Vitesco, the first sustainability report has been released and an ESG rating by TR is expected soon. Kyndryl Holdings and Euroapi SAS first sustainability reports are also expected to be published this year. The companies have already anticipated that they will be prepared in alignment with external standards like the Global Reporting Initiative and the UN Global Compact, a clear commitment to the highest standards in terms of CSR. For the time being, the companies are still under the cover of Continental’s, IBM’s and Sanofi’s sustainability reports, which boast good ESG scores and regarded ethical policies. SK Square originated from a spin-off of SK Telecom, which we have been holding in position for a long time. The company is still under the cover of SK Telecom’s sustainability report. Furthermore, more than of 90% of the value of the company resides in its holding in SK Hynix, which is covered by TR and boasts an ESG score of 81.

## Engagement activity

- According to TR Product Responsibility Screening, Telefonica, Deutsche Telekom, BT Group, Caixa Bank, Nippon Telegraph & Telephone and Japan Post Holdings are flagged as exposed to pornography.
- We believe that these red flags are due to a misinterpretation:
  - none of those companies produce any pornographic contents (they just manage platforms through which all different types of content can be bought);
  - each of those companies provides strict restrictions to prevent access to age-sensitive content;
  - the adult content can be accessed directly by the consumer without the telecom operator platform; accessing it through the Telecom platform is just safer;
  - Caixa Bank is flagged as exposed to pornography due to its 5% stake in Telefonica SA. Japan Post Holdings is flagged as exposed to pornography due to its 8% stake in Rakuten Group. We believe these exposures are flagged erroneously, as their ownership does not provide the power to determine company policies.
- All the companies are still working with Refinitiv in order to have the flags taken off.
- Refinitiv acknowledges the fact that the companies has effectively adopted multiple initiatives to ensure this content is protected against unintended use. They are pointing out that the reference to pornography is only made to the fact that some adult content can be found in the telecom operators' platform.
